

Edward M. Browne

MS, CHC, CHFM, CHPA, CEPSS-HC, CLSS-HC, FACHE, FASHE

Consultant

Joint Commission Resources

Background

- Senior Vice President Clinical and Support Services, Vice President Support Services, Executive Director Facilities and Support Services
- Expertise in hospital, ambulatory and outpatient life safety, environment of care and construction

Mr. Edward Browne has over 35 years as a healthcare engineer and manager. He has managed facility, safety, security, support service, and clinical departments in a wide variety of healthcare settings – from community hospitals to regional healthcare systems to tertiary teaching institutions including long term and chronic disease. Mr. Browne’s specialties also include environment of care, life safety, construction, emergency preparedness, hazardous materials management, security, food services, environmental services, and real estate.

Mr. Browne has worked nationwide as an environment of care consultant in diverse situations including mental health and pediatric facilities. He has implemented best practices, bringing his expertise to help facilities work through specific problems and has published numerous articles in several national publications on topics specific to our industry.
