

Jim Grana, MBA, CHSP
Physical Environment Specialist
Standards Interpretation Group (SIG)
The Joint Commission

Jim is an Physical Environment Specialist in the Standards Interpretation Group (SIG) of The Joint Commission (TJC). In this role, he supports accredited organizations and TJC surveyors as a resource for questions and interpretive guidance regarding the standards as well as serving as faculty for educational programs throughout the U.S. He is a technical content specialist for the Environment of Care, Emergency Management and Life Safety chapters for all accreditation manuals for TJC. Jim comes to TJC with 10 years of Healthcare experience, which started in facilities maintenance as a mechanic, before transitioning into management as a Safety Manager, and then a Facilities Manager in the Chicagoland Area. In addition to facilities safety and plant operations, Jim has a strong background in planning, design, and construction and has served as an Assistant Project Manager on healthcare capital improvement construction and renovation projects. Jim obtained a bachelor's degree from Carthage College and a master's degree in Business Administration (MBA) from Benedictine University. He is also a Certified Healthcare Safety Professional (CHSP), a member of the American Society for Healthcare Engineering (ASHE), and a member of Healthcare Engineer's Society of Northern Illinois (HESNI). He also holds an active Stationary Engineer's License from the City of Elgin, Illinois. Jim resides in the western suburbs of Chicagoland.
