

Leslie Thornburg, MPH, CHFM, CLSS-HC

Physical Environment Specialist
Standards Interpretation Group (SIG)
Joint Commission

Leslie is a Physical Environment Specialist in the Standards Interpretation Group (SIG) at the Joint Commission (JC). In this role, she serves as a key resource for accredited organizations and JC surveyors, providing expert guidance and interpretive support related to standards. She also contributes as faculty for JC educational programs. Leslie is a technical content specialist for the Physical Environment and Emergency Management chapters across all JC accreditation manuals. Prior to joining JC, she held various healthcare roles in Environmental Safety, Emergency Management, and Facilities Management throughout the Midwest. Leslie obtained a Bachelor of Science in Environmental Engineering from Missouri University of Science and Technology and a Master of Public Health (MPH) from Saint Louis University. She is a Certified Healthcare Facilities Manager (CHFM), a Certified Life Safety Specialist in Healthcare (CLSS-HC), and an active member of both the American Society for Healthcare Engineering (ASHE) and the Missouri Society of Healthcare Engineering (MOSHE). Leslie is currently participating in the ASHE Leader Institute.
