

Robert Aubrey

Robert is a Physical Environment Specialist in the Standards Interpretation Group at the Joint Commission. With more than 25 years of experience in facilities operations, compliance, planning, design and construction, as well as fire-fighting operations, Rob has always strived to improve processes to achieve higher reliability and consistency.

Rob's experience began as a professional fire-fighter in Pittsburgh, Pa., transitioning to roles with the state health authority as a Life Safety Code surveyor, field office supervisor and moving on to be the corporate director of facilities compliance for a large hospital network.

Rob has a Bachelor's Degree in Healthcare Management, is a member of the American Society for Healthcare Engineering (ASHE) and a proud United States Air Force veteran.
