

**Stephen C. Anderson, MBA, BSN, RN, CJCP, FACHE
Consultant
Joint Commission Resources**

Mr. Stephen Anderson has more than 30 years of experience in health care administration, including expertise in clinical and executive management, performance improvement measuring, and patient safety. His experience in numerous health care settings, including not-for-profit, government, and investor-owned health care delivery systems, has given him a broad understanding of the health care field in the United States and internationally.

Mr. Anderson has conducted consultations and/or educational programs in Singapore, Asia, and North America. He has been an advisor, trainer and consultant to rural hospital Board of Trustees and medical staff with a focus on matters related to regulatory requirements, policy, bylaws, rules and regulations and ongoing professional performance evaluations. Mr. Anderson is a former field representative (surveyor) for The Joint Commission and Joint Commission International.

Mr. Anderson's education includes a Master of Business Administration from the University of Utah (Salt Lake City, UT), and a Bachelor of Nursing from Westminster College (Salt Lake City, UT). His professional affiliations or certifications include:

- Fellow of the American College of Healthcare Executives (FACHE)
- American Academy of Ambulatory Care Nursing, Past President
- Certified Joint Commission Professional (CJCP)
- Affiliate Faculty - University of Washington School of Nursing, Biobehavioral Health Division.
